

LOCHWATCH LOCH AWE

LOCHWATCH CALLOUT!

The LochWatch volunteers were alerted late on Monday evening (14th April) to a report of flares seen in the sky over the loch. Police at Oban contacted the loch co-ordinator with information that six flares had been spotted possibly over Dalavich.

LochWatch volunteers on both shores of the loch were contacted and asked to report any further sightings of flares and to check their local area. It was a clear night with a full moon and visibility was excellent. Twelve volunteers turned out to assist and reported back to the loch co-ordinator with anything spotted.

Nothing was found and the volunteers were stood down after midnight.

LochWatch is available 24/7 to provide assistance in any urgent or emergency situation at or near Loch Awe. Loch co-ordinators receive reports from the emergency services and/or the LochWatch volunteers and will arrange the most appropriate response.
